

Old World

Curved French Country styled **hood** stack is faux finished in textured plaster with Alder wood carved mantel matching the wood finish of the island. Hood covers a lower cooktop area.

The paneled sides of the wall cabinets flanking the window extend downwards forming shaped **corbels** adding furniture styled anchoring elements to a stand-alone cabinet.

Two equally sized stainless steel **sinks** are mounted under the Gold Juperano granite **countertops** in the wash-up area. A traditionally styled brushed pewter faucet supports the Old World theme.

French Country styled **cabinets** finished in a glazed meringue color sits atop stained oak wood **flooring**, common to the home. Wood knobs blend with the cabinets in the same finish.

A raised breakfast counter supported on leg turnings is stained Alder wood. It breaks up the mass of the large **island** and screens the preparation area. Island storage includes refrigerator drawers and microwave.
