

# Traditional

- Lead muntins divide beveled edge glass lights to illuminated wall cabinets. Tall traditional crown moldings cap the cabinets with a neo-classical flair.
- Pots and pans hang over the island on a custom wrought iron pot rack adding charm and convenience to this traditional kitchen.
- Paneling above a decorated hood mantel with hand carved corbel brackets creates a hearth style cooking center reminiscent of a traditional wood fireplace mantel.
- Furniture styled island in antiqued ox blood red adds a bold contrast to the light perimeters. A curved black absolute granite counter with double ogee finished edges suggests formality.
- Perimeter cabinets with raised panel door styling are finished with a creamy glazed paint with aged effects. The deep moldings capture the glaze enhancing the depth of finish.
